

# Indexer For Magento2

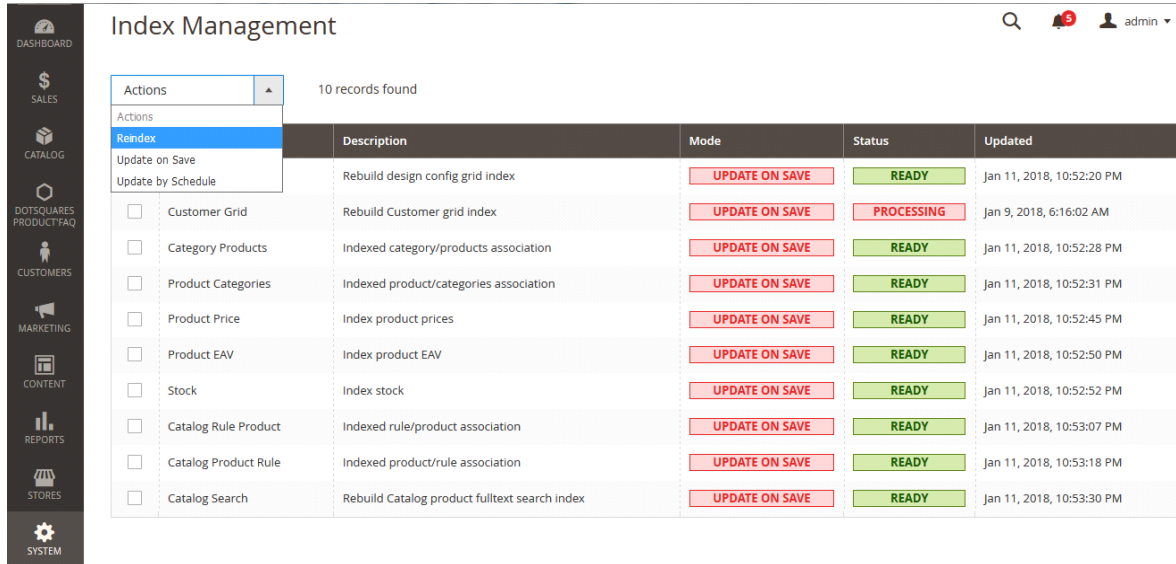

## Indexer

This extension provides the functionality of re-indexing from admin panel of the website. By default Magento 2 does not provide re-indexing functionality, it's very hard for admin users to do re-indexing through Command Prompt as it involves technical part and most of the admin users are not familiar with command prompt.

So, this extension provides the functionality of re-indexing of the data from admin panel of the website.

## Indexer Option and Setting

System >> Tools >> Index Management

The screenshot shows the 'Index Management' interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Dotsquares Product FAQ, Customers, Marketing, Content, Reports, Stores, and System. The main content area has a search bar, a notification bell with '5', and a user profile 'admin'. Below this is a table with 10 records found. A dropdown menu is open over the 'Actions' column, showing options: 'Reindex', 'Update on Save', and 'Update by Schedule'. The table columns are: Actions, Description, Mode, Status, and Updated.

Actions	Description	Mode	Status	Updated	
<input type="checkbox"/>	Customer Grid	Rebuild Customer grid index	UPDATE ON SAVE	READY	Jan 11, 2018, 10:52:20 PM
