

# Custom Shipping Method For Magento2

## Custom Shipping Method

Custom Shipping Method extension can easily add custom shipping rules methods. The Admin can update shipping rate and shipping title from backend/admin panel. This extension will provide offers to multiple shipping options to the customer based on their location. With this extension, the admin can define different shipping rates according to the country, shipping method and the weight, price or quantity of an item. The Admin can apply shipping method specific to countries and the websites. Free shipping can be enabled only for admin order from the admin panel.

**Configurable to an extension after installing your website:**

**Please follow step and screenshot:**

**Step1: Enable and disable extension from admin**

- a) Go to the admin store > configuration > sales > shipping methods.

e) Open CSV and fill your shipping rate and country code where you want to have different shipping charges.

**NOTE: Please insert valid country code. If you want same shipping charge for all country then you will have to fill \* in the country column, city, and postal code Column.**

f) Import CSV and save.

**By using above step 2 you can create shipping rate for a different condition such as “item & Destination” and “subtotal & Destination”.**

### Step 3: Enable free shipping on the admin order:

- Go to the admin store > configuration > sales > shipping methods > Dotsquares Matrix Rate.
- Enable to free shipping in the admin area.
