# Advanced Discount
# For Admin

# Extension Overview :

The Advanced Discount For Admin Magento 2 Extension is a powerful tool that allows store owners to create a wide variety of discounts and promotions for their customers based on their demand. The extension lets you add a separate section on the admin create order page where the admin can set a discount either a percentage discount or a fixed amount discount without creating coupons.
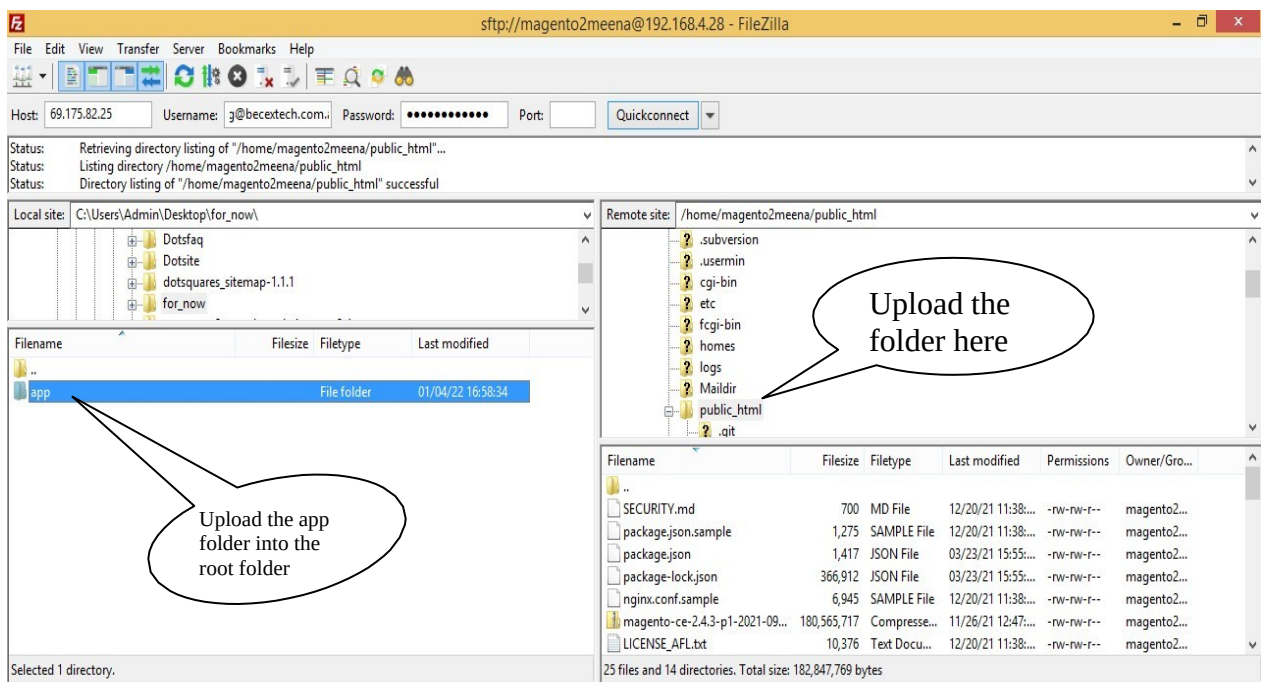

The discounted amount will be visible in the order summary section on the order detail page in the back-end and front-end on the order detail page.

# Extension Features :

- The store admin can provide a percentage discount to their customer.

- The store admin can provide a fixed amount discount to their customers.

- The admin can change the enable/disable module using the system configuration setting

- The admin can provide discounts without creating coupons

- Provide a Simple Interface for the Admin.

- Compatible With Magento Community 2.4 and Above

# Extension Installation :

## Installation Process

Advanced Discount For Admin, for Magento2, module installation is very easy and quick. You need to move the 'app' folder in Magento 2 root directory as per the screenshot**.**

After the successful installation of the extension, you need to run the following commands in magento 2  root directory.
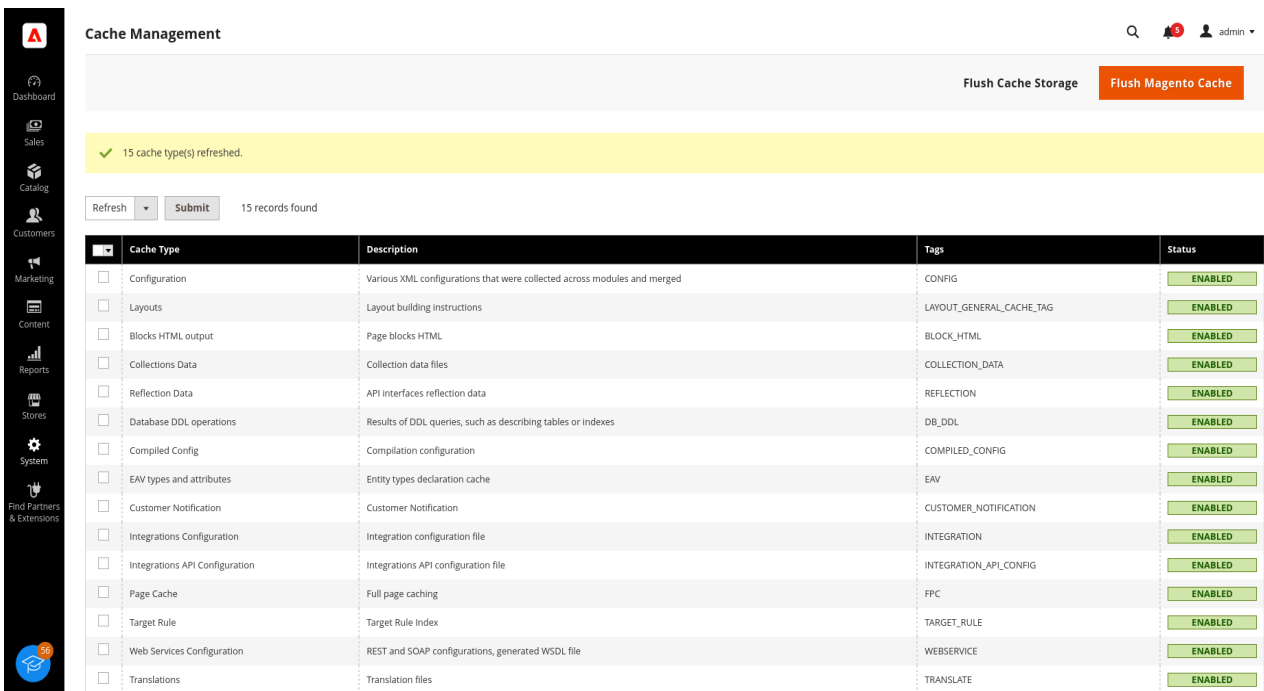

php bin/magento setup:upgrade

php bin/magento setup:di:compile

```
[magento2meena@ds23 public_html]$ php bin/magento setup:di:compile
```

Run this command
in magento2 root

php bin/magento setup:static-content:deploy

```
[magento2meena@ds23 public_html]$ php bin/magento setup:static-content:deploy
```

Run this command in
magento2 root folder
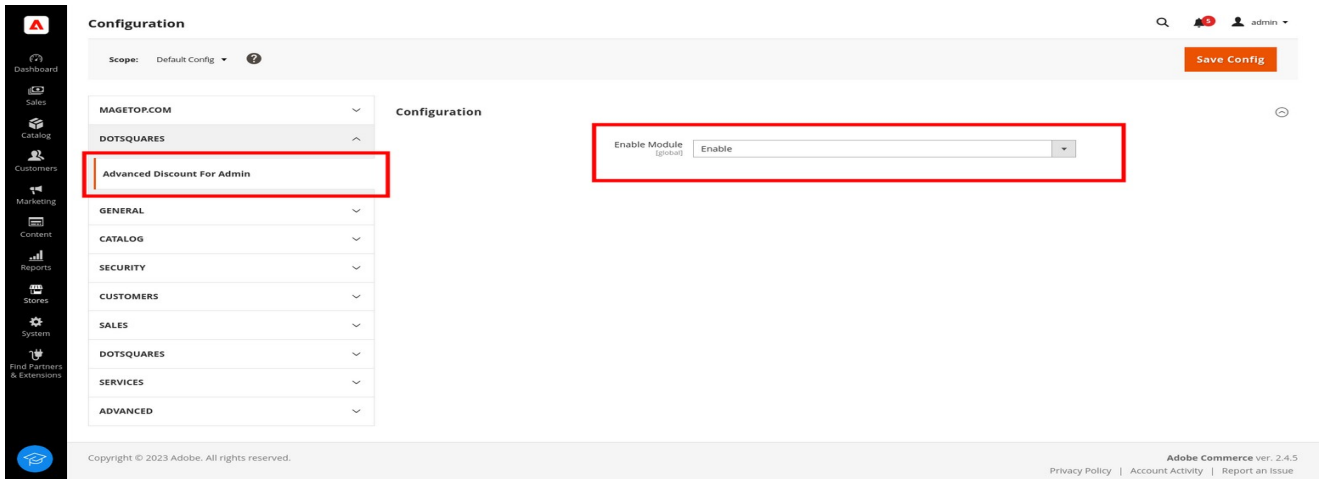

After running these commands, you need to log in to the admin panel and need to clear the Cache. Please refer to the attached screenshot.

# How the extension will work in the admin area :

## 1. Enable/Disable using System Configuration

After installation of the module, you need to enable a module from the back-end.

## 2. Apply Custom Discount for admin

The admin can apply the discount either in a fixed amount or in percentage form.

## 3. Applied custom discount on order

Once the order is placed, the discount amount will be visible on an order detail page in the admin

## 4. Applied custom discount on the invoice page

Once the order is placed, the discount amount will be visible on an invoice detail page in the admin
