**GDPR Support**

GDPR Support extension provides cookie compliance and customer data anonymous. This extension provides a cookie compliance form requesting 'express consent' from your website visitors upon entering your website.

Configurable to an extension after installing *on* your website:

Please follow the given below step and screenshots:

Step1: Go to Stores->Configuration->GDPR & DELETE CUSTOMER ACCOUNT **and find the extension setting.**

Step 2: When a user deletes his account from front-end then order associated with the user will automatically change to anonymous and fields such as name, email, and telephone data will change to dummy data as per the attached screenshot.

Delete Customer Data

Enable [store view]	Yes ▾
Choose options to delete customer's Data [website]	☑ Customer's Account Delete ☑ Customer's Order Data Anonymization
Please enter customer name during order anonymization [store view]	change Default we use timestamp for customer name.
Please enter customer email address during order anonymization [store view]	test@change.com Default we use timestamp for customer email address.
Please enter customer telephone number during order anonymization [store view]	34343434343 Default we use timestamp for customer telephone number.

Step 3: GDPR policy and Website policy checkbox on the registration form is when the customer checked the newsletter consent form. Then he will get newsletter mail otherwise he will not get any newsletter notification. Customer can edit newsletter consent form from customer account dashboard.

Step 6: After enabling display cookies consent form from the admin panel, it displays cookie consent pop-up on front-end of the website. On accept cookies consent form customer will use Google tag manager for cookies and if customer will decline cookies consent form then there will no cookies.

Step 7: After successful registration, the customer can opt out from GDPR policies at any time going into my account>GDPR policy>my account data.

Step 8: If the admin enables customer delete account feature in the GDPR settings then the customer can check his/her total number of order details and will be able to delete his/her order and account from the customer account section.

Delete Account
