# Quick Contact

Quick Contact

Quick Contact Extension enables you to embed the Quick contact form anywhere in your site easily. You can configure Quick Contact to send email to inquirer or an option to save messages to database for an admin view.The customers can use it to reach out to you for any query they have and you can revert back quickly.

**Configurable to an extension after installing your website:**

Please follow given below step and screenshots:

Step1: Go to store--> Configuration--> Dotsquares Quickcontact-->Quickcontact.

Step 2: For Show quick contact save data in grid.

Go to store--> Configuration--> Dotsquares -->Quickcontact.

Dotsquares Quickcontact

ID	Name	Email	Phone	Message
